Como homenaje en su día, traemos aquí sus 'bancos de Möbius '…

Outside the circle, the back of the seat twists to become the seat itself, which twists to become the bottom of the seat…You sit and shift from outside to inside, and vice versa…

The Möbius bench is adapted here to the shape of the mall. The bench is forked: one side hugs

the building, while the other splits into ‘arms’ — one reaches out toward pedestrians as they walk in from the parking lot…
