Entrevista a Ignacio

Cirac

Artículos:

Finite Element Methods for the Numerical Simulation of Incompressible Viscous Fluid Flow Modeled by the Navier-Stokes Equations. Part III. R. Glowinski, T. W. Pan, L. H. Juárez V. and E. Dean

An Introduction to the Finite Dynamics. R. Sanders

Volume Method for the Equations of Gas

Dinámica de frentes de la ecuación 2D quasi-geostrífica. D. Córdoba

Multiphase flow in porous

media. B. M. Chen-Charpentier

Resúmenes de tesis doctorales

Resúmenes de libros
